# Chapter 1. Non media objects

## 1.1. Using the para element

Para 1

Para 2 is long because it repeats itself. Para 2 is long because it repeats itself. Para 2 is long because it repeats itself. Para 2 is long because it repeats itself. Para 2 is long because it repeats itself. Para 2 is long because it repeats itself. Para 2 is long because it repeats itself. Para 2 is long because it repeats itself. Para 2 is long because it repeats itself. Para 2 is long because it repeats itself.

## 1.2. Special chars

Financial: dollar (\$), euro (€), pound (£)

XML escapes: lower then (<), greater then (>), ampersand (&), double quotes ("), non breaking space ( )

Java escapes: backslash (\)

Hello world translations: Russian (##### ##), Chinese (####), Swedish (hallå världen), Arabic (#####), Hindi (#####)

## 1.3. Using the section element

### 1.3.1. Subsection 1

#### 1.3.1.1. Subsection 1.1

Para

#### 1.3.1.2. Subsection 1.2

Para with subsection below

##### 1.3.1.2.1. Subsection 1.2.1

Para

##### 1.3.1.2.2. Subsection 1.2.2

Para

## 1.4. Using the itemizedlist element

Simple itemizedlist:

- listitem 1
- listitem 2

Nested itemizedlist:

- listitem 1
  - listitem 1.1
  - listitem 1.2
- listitem 2
  - listitem 2.1
    - listitem 2.1.1
      - listitem 2.1.1.1

## 1.5. Using the programlisting element

First Java:

```
public class HelloWorld {  
  
    public static void main(String[] args) {  
        // This is a comment  
        HelloWorld w = new HelloWorld();  
        w.say();  
    }  
  
    private String greeting = "Hello";  
  
    public void say() {  
        System.out.println(greeting + ", world!");  
    }  
  
    ...  
  
}
```

Then XML:

```
<?xml version="1.0" encoding="UTF-8"?>  
<root>  
    <element attribute="value1">  
        text1  
    </element>
```

```
<element attribute="value2">text2</element>
<element/>
</root>
```

In itemizedlist:

- listitem 1

```
public class HelloWorld {

    public static void main(String[] args) {...}

}
```

- listitem 2

## 1.6. Note, warning and important

### Note

This is a note

### Warning

This is a warning

### Important

This is an important

### Warning

This is a warning with a programlisting

```
public class HelloWorld {

    public static void main(String[] args) {...}

}
```

## Important

This is an important with an itemizedlist

- listitem 1
  - listitem 1.1
  - listitem 1.2
- listitem 2

---

# Chapter 2. Media objects

## 2.1. Same directory section

Normal PNG image:

Too wide PNG image:

## 2.2. Subdirectory section

Normal JPG image:
